**WOMEN IN TECH**

**12:00–13:20**

The hugely popular Women's Power Panel Discussion is back, sponsored by Geeks Ltd. This is the section of the show dedicated to Surrey business women and this year we are paying special attention to the topic of 'Women in Tech'.

With only a quarter of the UK tech industry being women we want to explore what the challenges are getting into this industry. How our panelists have survived and thrived in this sector and what the benefits are to pursuing a career or business in tech.

Female tech positions are needed now more than ever and all our panellists are passionate about highlighting how the industry would benefit from greater inclusivity and more diverse representation.

This is a fantastic opportunity to meet like-minded ladies within the county, hear their stories and help guide you on your business journey.

**SURREY FIRE AND RESCUE SERVICE**

Statistics for the UK show that 30 people die and 2,000 are injured each year as a result of fires in the workplace. The damage to businesses caused by fire costs the economy over £6 billion and 75% of businesses that have a fire within the first year never trade again. At Surrey Fire and Rescue Service we aim to support businesses in reducing the risk and impact of a fire by offering free advice and guidance on fire safety. Our Business Safe and Well Visits take just ten to fifteen minutes and cover aspects such as identifying the hazards, reducing the risk of a fire starting, and steps to ensure the safety of staff and visitors. If you would like a free Business Safe and Well Visit, please visit the Surrey Fire and Rescue website and enter 'Business Safe and Well Visit' in the search bar and complete the request form.
